

Tania Devi

UI/UX Designer | Product Designer

Seattle, WA | taniaukrani@outlook.com | 540-460-7688 | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

UI/UX Designer and Product Designer with 3+ years of experience delivering end-to-end UX design for consumer, SaaS, and fintech products across web and mobile platforms. Proven track record shipping production-ready, accessible, and user-centered digital experiences. Skilled in user research, wireframing, interaction design, visual design, prototyping, usability testing, and developer handoff. Proficient in Figma (Variables, Auto Layout, Components), design systems, and design tokens. Experienced collaborating cross-functionally with product managers and engineering teams in agile, distributed environments.

EXPERIENCE

Founder & UI/UX Designer - Fuze Studio *Jun 2023 – Present*

- Led end-to-end UX design workflows across 8+ client engagements spanning consumer mobile apps, SaaS platforms, and AI-driven product experiences - from discovery and user research through wireframing, interaction design, high-fidelity UI, usability testing, and developer handoff.
- Applied human-centered design (HCD) principles across web and mobile, balancing user needs, business goals, and engineering constraints in fast-paced, agile, distributed team environments.
- Built and scaled component-based design systems in Figma using Variables and design tokens, ensuring cross-platform consistency and accelerating developer handoff.
- Conducted user research including interviews, surveys, and usability testing; synthesized insights into user personas, user journeys, and user stories to drive iterative product decisions.
- Defined product requirements and user flows alongside founders and product stakeholders, translating business goals into shipped features through low-fidelity wireframes, high-fidelity mockups, and interactive prototypes.
- Leveraged AI-enabled design tools and generative AI workflows throughout the design process - including vibe coding, rapid prototyping, visual exploration, and design QA - to accelerate iteration and improve output quality.
- Improved onboarding flows and product clarity across multiple clients, contributing to measurable lifts in user engagement and conversion rates.

SKILLS

UX/UI Design: End-to-end UX design, user research, wireframing, interaction design, visual design, prototyping, high-fidelity mockups, usability testing, developer handoff, accessibility standards (WCAG), responsive web design, mobile design, information architecture, user journeys, personas, user stories.

AI & Emerging Tools: AI-enabled design workflows, generative AI tools, vibe coding, rapid prototyping with AI, human-AI interaction principles, AI-native design patterns, responsible AI design.

Tools: Figma (Variables, Auto Layout, Components), Framer, Adobe Creative Suite, prototyping tools.

Collaboration & Process: Cross-functional collaboration with product managers and engineering teams, agile methodology, stakeholder communication, design reviews, product roadmap input, distributed team environments.

EDUCATION

Google UX Design Certificate - Google / Coursera, 2023

Business Management - London South Bank University
